Summary of CV

This section describes briefly a summary of your career in science, academic and research; the main scientific and technological achievements and goals in your line of research in the medium -and long- term. It also includes other important aspects or peculiarities.

Desde mi introducción al sistema investigador (beca Ministerio Educación, Formación de Personal Investigador) en la Universidad de Alicante, donde pude participar en la planificación y montaje desde cero de un laboratorio de experimentación proteómica, he tenido la oportunidad de investigar y participar en proyectos y en su financiación en centros de investigación y desarrollo nacionales e internacionales (Consejo Superior de Investigaciones Científicas -varias sedes y centros-, Universidades (UPV, UC3M, USAL, UA) y IRB (Instituto de Investigación Biomédica de Barcelona), CiCBiogune, Institute of Medical Sciences -U. Aberdeen-.

En 2009 obtuve acreditación favorable en el Área de Ciencias de la Salud por la ANECA (Agencia Nacional de Evaluación de la Calidad y Acreditación (ANECA) para las figuras de Profesor Contratado Doctor, Profesor Ayudante Doctor y Profesor de Universidad Privada, lo que permitió mejorar y desarrollar labores docentes y de investigación en el ámbito sanitario, asistencial y experimentación celular y molecular.

Actualmente, a modo de indicador de calidad, alcanzo un h-index de 29 y más de 2400 citas en publicaciones revisadas por pares y de prestigio internacional. Mi labor investigadora se centra actualmente en la complementariedad de aproximaciones -ómicas (proteómica, metabolómica, genómica, transcriptómica) y su tratamiento bioinformático.

Me gustaría resaltar, como complemento a la investigación, que dispongo de experiencia en gestión de la investigación, financiación de proyectos y transferencia de resultados de investigación al tejido empresarial privado, incluyendo generación de start-ups, EBTs y su financiación pública y privada.
