Summary of CV

This section describes briefly a summary of your career in science, academic and research; the main scientific and technological achievements and goals in your line of research in the medium -and long- term. It also includes other important aspects or peculiarities.

I obtained my degree in biology from the University of Balearic Islands, Spain in 1992; and I completed my doctoral research at the same university in 2007 working on deep western Mediterranean demersal fish communities. Between 1992 and 2006 I worked at the Mediterranean Institute for Advanced Studies (CSIC-UIB IMEDEA) passing through different types of contracts, from laboratory assistant to technician but always associated to research projects (EU and national projects). My current role is senior researcher at the Oceanographic Centre of the Balearic Islands, one of the coastal centres of the Spanish Institute of Oceanography, since 2006. From October 2008 to July 2009 I was a visiting researcher at the School of Ocean Sciences, Bangor University (UK). Finally, from 2010 to 2012 I was the Scientific Coordinator of the Coastal and Marine Research Station Jaume Ferrer placed in the Mahón harbour in Menorca. Most of my work is about the study of fish populations, fish communities and ecosystem effects of fishing. I am particularly interested in the functioning of marine ecosystems and how biological processes, environmental factors and anthropogenic pressures, which modulate them, can determine their current conservation status. My research has focused primarily on the western Mediterranean and particularly in the Balearic Islands. After a long period working on deep-sea ecosystem and fisheries ecology, I am currently interested on littoral ecology and coastal ecosystems. The main objectives of my current new research lines are: i) to understand the factor affecting settlement and post-settlement processes of littoral fishes within nursery habitats; ii) to understand the spatial and temporal distribution patterns of juvenile littoral fishes related to habitat three dimensional structure and protection; iii) to improve the knowledge on the relative contribution of the environmental and anthropogenic factors affecting littoral fish population to improve the management and conservation of coastal fish species. However, my research interest spreads to other aspects of marine systems, so I enjoy working collectively with other biological and physical oceanographers and marine geologist. I really believe that the interdisciplinary approach is the way to better understand the ecosystem functioning and promote the conservation of the biological diversity. I sincerely expect that my research can be helpful to achieve these goals.

General quality indicators of scientific research

This section describes briefly the main quality indicators of scientific production (periods of research activity, experience in supervising doctoral theses, total citations, articles in journals of the first quartile, H index...). It also includes other important aspects or peculiarities.

4 six-year research terms granted "sexenios". 1996-2001 (desicion:06/06/2018); 2002-2007 (desicion: 05/06/2019); 2008-2013 (desicion:05/06/2019); 2014-2019 (desicion: 17/06/2020)
5 five-year research terms granted "quinquenios". 1999-2003 (desicion:18/06/2020); 2004-2008 (desicion:18/06/2020); 2009-2013 (desicion:18/06/2020); 2014-2018 (desicion:07/10/2020)

Participating entity/entities: Institut Mediterrani d'Estudis Avançats

Total amount: 405.000 €

R&D non-competitive contracts, agreements or projects with public or private entities

1 Name of the project: Caracterización del ecosistema bentónico de la plataforma costera del área comprendida entre Sa Drogonera y Cap de Ses Salines (Mallorca).

Degree of contribution: Researcher

Name principal investigator (PI, Co-PI....): Monserrat Ramón

Nº of researchers: 10

Participating entity/entities: IEO

Funding entity or bodies:

Conselleria d'Agricultura i Pesca del Govern Balear. **Type of entity:** Administración

Start date: 2010

Duration: 3 years

Total amount: 332.000 €

2 Name of the project: Convenio de colaboración entre la y el Instituto Español de Oceanografía para la puesta en marcha y el desarrollo científico de la estación de investigación Jaume Ferrer (La Mola, Menorca)

Degree of contribution: Scientific coordinator

Name principal investigator (PI, Co-PI....): Joan Moranta

Nº of researchers: 6

Participating entity/entities: IEO

Funding entity or bodies:

Instituto Español de Oceanografía **Type of entity:** Public Research Body

City funding entity: Madrid, Community of Madrid, Spain

Consejería de Economía, Hacienda e Innovación del Gobierno de las Islas Baleares **Type of entity:** Administración

City funding entity: Palma de Mallorca, Balearic Islands, Spain

Start date: 2009

Duration: 5 years

Total amount: 1.097.996 €

- 3** **Name of the project:** Estudio integrado de los ecosistemas demersales explotados en las Islas Baleares (Mediterráneo occidental) y bases científico-técnicas para un enfoque ecosistémico en la gestión de pesquerías (BADEMECO).
Nº of researchers: 11
Participating entity/entities: IEO

R&D management and participation in scientific committees

Organization of R&D activities

Title of the activity: Wrapping up of the IDEA project. International Workshop on Environment, Demersal Resources and Fisheries

Type of activity: Workshop

Geographical area: UE, USA

Convening entity: Institut Mediterrani d'Estudis Avançats

Type of entity: Public Research Body

City convening entity: Palma, Balearic Islands, Spain

Start-End date: 10/05/2006 - 12/05/2006

Duration: 3 days

R&D management

Name of the activity: Coordinador Científico de la Estación de Investigación Jaume Ferrer

Type of management: Programme management

Performed tasks: Coordinación y gestión programa científico

Entity: Centro Oceanográfico de Baleares

Type of entity: Public Research Body

Start date: 01/12/2009

Duration: 2 years - 10 months

Other achievements

Stays in public or private R&D centres

Entity: Bangor University

Type of entity: University

Faculty, institute or centre: School of Ocean Sciences

City of entity: Porthaethwy, East Wales, United Kingdom

Start-End date: 01/10/2008 - 31/07/2009

Duration: 9 months

Goals of the stay: José Castillejo

Obtained grants and scholarships

Name of the grant: Beca Predoctoral

Aims: Pre-doctoral

Awarding entity: Consejo Superior de Investigaciones Científicas

Type of entity: State agency

Conferral date: 01/02/1995

Duration: 2 months

End date: 31/03/1995

Entity where activity was carried out: Institut Mediterrani d'Estudis Avançats
